

***If someone in the household has mental or physical health problems***

I/ a member of my household have/has mental or physical health problems.

*Explain here all or some of the following:*

- What are the health problems?
- Why would their health problems make it difficult for them to live elsewhere?

These health problems would make moving from my/their home harmful, and requiring such a move, through making under-occupancy deductions, is discriminatory and unlawful in relation to the Human Rights Act 1998.
